Jelgava,
25 July, 2017 No 1-15/62

To “Science on Stage Europe”
“Science on Stage Hungary”

On behalf of “Science on Stage Latvia” and the delegates from Latvia taking part in Europe's biggest educational festival for STEM teachers “Science on Stage 2017” that took place from 29 June – 2 July 2017 in the Kölcsey Convention Centre in Debrecen, Hungary we would like to express our gratitude to everyone involved in the excellent planning, preparation, organisation and participation that made this event a valuable and unforgettable experience for more than 450 teachers from all over Europe that allowed teachers to exchange innovative teaching concepts, participate in enlightening and stimulating presentations and workshops, make contacts for further cooperation, get inspiration for new projects and enjoy Hungarian hospitality.

We really appreciate the efforts of all the involved in making this event so special and memorable.

Thanking you,

Yours Truly

Skaidrite Bukbarde
